"CITY OF PEKING"	WEDNESDAY, 1st October, at Noon

THE O. & O. Company's Steamship "DORIC" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU, on FRIDAY, the 22nd instant, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada. Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting Railways, and from Chicago to destination the choice of direct lines.

Special rates (first-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are confined and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets, making the return journey between ports in the Orient and Honolulu or beyond, within twelve months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to address in full; value of same is required.

Consular Invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold or over) destined to Ports, beyond San Francisco, in the United States, should be sent to the Companies' Office addressed to the Collector of Customs at San Francisco.

Merchants' Invoice will be sufficient for cargo or parcel (each shipment) when the value is less than \$100. U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

U. S. IMPORTS TO CHINA
INCREASING.

Exports from the United States to Asia are showing a greater gain in the present year than those to any other part of the world, says an American exchange. The latest reports of the Treasury Bureau Statistics show an increase in the exports to nearly every division of Asia during the ten months ending with April, while to South America they show a decrease in the exports to nearly every division.

To the Dutch East Indies the figures show an increase of from \$1,491,142 in the ten months of 1901, to \$1,683,185 in ten months of the present fiscal year; to Hongkong, from \$6,935,703 to \$7,396,270; to Japan, from \$15,185,321 to \$18,981,250; and to China, from \$7,423,348 to \$10,163,123.

To China our exports for the full fiscal year seem likely to exceed those of any preceding year, and to Japan they will exceed those of any previous year except 1900, which was exceptional because of the large purchases of cotton made in the United States in that year for the Japanese market.

Our exports to China which in 1892 were \$5,663,397, seem likely to be nearly or quite \$15,000,000 in 1902. To Japan our exports in 1892 were \$3,200,111, and in 1902 seem likely to be \$23,000,000. To Hongkong our exports during 1892 were \$4,894,049, and in 1902 seem likely to be about \$8,500,000. To the British East Indies our exports in 1892 were \$3,674,307, and in 1902 will be about \$5,000,000. To the Dutch East Indies they were in 1892 \$1,372,035, and in 1902 will be about \$2,000,000. To the Russian possessions in Asia our exports in 1892 were \$120,200, and those of 1902 will considerably exceed a million dollars. To all of Asia our exports in 1892 were \$19,590,350, and in 1902 they will aggregate about \$66,000,000.

To Oceania the actual growth in our exports is not so readily perceptible, because of the fact that the figures of

EXPORTS TO OCEANIA no longer include our shipments to the Hawaiian Islands, which are now considered as domestic trade with domestic territory. Comparing 1892 with 1902, however, there is a marked growth in the shipments to all of those sections of Oceania now included in the statements of foreign commerce. To British Australasia our exports were, in 1892, \$11,385,677, and in 1902 will be about \$30,000,000.

To the Philippine Islands our exports in 1892 were \$60,914, and in 1902 will be about \$5,000,000. The total exports to Oceania in 1892 were \$15,572,767, and these figures included \$3,781,628 of shipments to the Hawaiian Islands; in 1902 the total to Oceania, exclusive of the Hawaiian Islands, will be about \$35,000,000, while to the Hawaiian Islands alone, the shipments during the year, according to the best figures obtainable by the Bureau of Statistics, amount to about \$20,000,000, making our total exports to Oceania, including the Hawaiian Islands, about \$55,000,000, and to Asia and Oceania combined, about \$120,000,000, as against \$35,000,000 in 1892.

The following table shows the exports from the United States to Asia and Oceania, respectively, in each year from 1890 to 1901:

FISCAL YEAR.	TO ASIA.	TO OCEANIA.
1890	19,696,810	16,459,262
1891	25,533,308	18,621,801
1892	19,590,350	15,572,767
1893	16,222,354	11,199,477
1894	20,872,761	11,914,182
1895	17,325,057	13,109,231
1896	25,930,029	17,197,229
1897	39,274,905	22,652,773
1898	44,707,791	22,003,622
1899	48,360,161	29,875,015
1900	64,913,807	43,391,275
1901	49,390,712	55,392,401
1902	66,000,000	55,000,000

*Two months of 1902 estimated. Exports to Hawaii in 1901, 1902, estimated at \$20,000,000 for each year.

THE FALL OF THE VENICE
CAMPAÑILE.

FURTHER PARTICULARS.

A home paper publishes the following details from Venice of the 14th ult., regarding the fall of the Campanile of St. Mark's:

The fine detached campanile of the Cathedral of San Marco, built in the tenth century, 300 ft. high, with the belfry designed by Bartolomeo Buon in 1510, has just fallen down on to the Piazza. Yesterday it showed signs of decay, alarming the authorities and the population. A longitudinal crack appeared on the corner of the wall facing the clock tower, breaking two small windows. The prefect stopped an evening concert in the Piazza so as to avoid the concourse of people, and forbade visitors to ascend the tower or the bells to be rung on it, and it was resolved to begin work on the repairs to-day. The campanile collapsed where it stood, and is now a heap of ruins. The Cathedral and the Doge's Palace are quite safe, and only a corner of the Royal Palace is damaged. It is believed, but it is not certain, that there has been no loss of life. A cordon of troops is keeping the Piazza clear. The ruins are piled up to the height of about 100 ft. The Piazza di San Marco and the adjoining squares are covered with debris, and dust. The disaster has caused a great sensation.

WHAT EYE-WITNESSES SAW. Eye-witnesses report that a large piece of masonry, about two metres in length first became detached from the cleft which had formed in the tower and fell upon the Sansovino terraces at the foot of the tower, fronting the entrance to the Doge's Palace. The campanile then subsided slowly and gently like a house of

cards, the upper part containing the bells being buried in the ruins.

The large figure of the angel which crowned the spire of the campanile was projected beyond the heap of debris, fell on the right gate of the church, and was broken. There was a great shock, and a dense cloud of dust enveloped the piazza, obscuring it for some time.

The Sansovino terrace is buried under the rubbish, and it is feared that the bas-reliefs in the Loggia by Girolamo, the columns of Greek marble, the bronze statues by Sansovino, and the posterns by Gai are destroyed or much injured. The roof and facade of the corner wing of the old library begun by Sansovino, and forming part of the Royal Palace, were broken in, and great damage was done.

The Communal Council has been convened to meet this evening. The populace is in a state of the utmost consternation, and much exasperated against those persons who are alleged to be responsible for the misfortune.

INQUIRY ORDERED.

ROME.

The evening papers publish a long communication issued by Signor Nasi, Minister of Public Instruction, from which it appears that the Prefect of Venice yesterday informed the Minister of the dangerous crack which had formed on the campanile. The Minister had received no warning that there was a danger of the fall of the belfry; on the contrary, the Technical Committee had decided in November last that there was no danger.

The Minister has ordered the members of the committee to proceed to Venice this evening in order to commence a strict inquiry into the responsibility for the accident, and to obtain information as to the safety of the other monuments in the city.

COALING AT SEA.

The Lidgerwood Manufacturing Co., 96 Liberty Street, New York, has recently installed on the U.S. battle ship *Illinois* the Lidgerwood-Miller Marine Cableway for coaling vessels at sea. The merits of this system are fully indorsed by Admiral Dewey and the late Rear Admiral Sampson. The complete equipment is now fully in place on the U.S.S. *Illinois* and it is believed that it fulfills all factors of the problem. The only "machines" required for a Marine Cableway are two special operating winches, but these have been so designed that they serve double purpose and therefore take up no additional space. Upon the superstructure deck of the U.S.S. *Illinois* there were two winches. These winches have been put ashore and the new winches have been substituted occupying precisely the same bed and employing the same foundation bolts.

In harbour coaling

THE "NIGGER" HEADS

are used, and they will hoist 2,240 lbs. 300 feet per minute. The slipping drum will develop a rope speed of about 1,700 feet per minute and lift a load of one half ton. These winches operate the load carriage between collier to warship. One winch draws the loaded carriage towards warship; the other winch draws the empty carriage back to collier. A single wire rope 3 1/2 inch diameter, 2,000 feet long, is employed for this purpose. Both winches run all the time in the same direction. The ropes are always taut. The reciprocating motion is given to the load carriage by the friction of one slipping drum overpowering the other. The drum of one winch is always winding in rope. The drum of the other is always paying out rope under tension by the slipping of the friction-heads. The heat developed by the slipping is sufficiently dissipated by radiating fins and air passages. This method of operating a load carriage is independent of the relative motion of the two ships. When the ships pull apart one drum slips, thus paying out the rope. When the ships approach each other, the slack given to the rope is wound in. It is essential that the rope speed of these winches be greater than the speed at which the ships approach each other. Mr. Spencer Miller, Engineer of the Cableway Department of the Lidgerwood Manufacturing Co., sailed recently for Europe in order to introduce said system in the navies of the European Powers.—*New York Maritime Register*.

THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought daily on nothing more solid than the pledged promises of men—not written, merely verbal. The Stock Exchanges are often called nests of gamblers; yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective modern remedy called "Wampole's Preparation" never deceives any who resort to it in hope of benefit and cure, we may expect to be believed. For this assurance is given on what it has done in the past in countless cases, on its record. It is only recommended to accomplish what it was made to accomplish. Its action in Chlorosis, Anemia, La Grippe, General Debility, Throat and Lung Troubles, Blood Impurities, etc. is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from sensitive and nervous stomachs. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumph of the age. Sold by all chemists here.

NOTICE.

THE SECOND VOLUME OF BOX'S EXCHANGE TABLES with Rates in 1/10ths from 1/10 to 1/100 down to 1/1000, is now on Sale at THE "HONGKONG TELEGRAPH" Office. These Tables, which run in columns of 100, from 1/100 down to 1/1000, enable the user to arrive at the value in Dollars of any sum in Sterling under £1,000 by simply adding the equivalent of the Shillings and Pence to that of the Pounds; or to get the value in Sterling of any Sum of Dollars and Cents to that of the Dollars. By these simple means of computation a very considerable saving of time and trouble, besides securing a ready means of proving accuracy is secured, as it is illustrated in the following examples: To reduce £879.17.11 into Dollars at Exchange 1/10 1/10:

£879. 0. 0. = \$9,561.926
17.11. = 9.745

whereas with the other exchange books the process would be as follows:—

£800. 0. 0. = \$8,702.550
70. 0. 0. = 761.473
9. 0. 0. = 97.904
17. 0. 0. = 9.247
11. = 0.497

\$9,571.671

or to convert the dollars into sterling at the same rate of exchange:—

\$9,000.000 = £827. 6. 8
571.000 = 52. 9. 9.11
.671 = 1. 2.13

879.17.11.00

but by other books it would be:—

\$9,000.000 = £827. 6. 8
500.000 = 45.19. 3.4
70.000 = 6. 8. 8.6
1,000 = 1.10. 1
.000 = 1. 1. 3
70 = 1. 9

879.17.11.00

Every care has been taken in compiling these Tables to insure their accuracy and even as the book was being printed the last impression of each sheet was taken and carefully rechecked by two separate persons and any little errors as these are carefully corrected in each copy before it is issued, thus making it a most accurate and useful book. Price for this and the previous volume, \$10 per copy.

OWING to the insufficiency of accommodation
in the present building and the
increasing demand for admission, it has been
found necessary to extend the wings of the

wings. The estimated cost will amount to over
\$15,000. To cover these expenses we Appeal
to the liberality of all friends of Education.
The establishment has been in existence for the
last 25 years and is open to all classes. Much
of the clerical work of the city is carried on by

Boer Generals visit the King.

LONDON, August 17th.
The Boer generals Botha, Dewet, and Delarey, accompanied by their Advocate Ferreira, left London this morning on a visit to His Majesty King Edward on board the royal yacht at Cowes. They returned to London in the evening much pleased with the reception accorded them by His Majesty.

His Majesty the Shah of Persia has arrived at Dover on a visit to His Majesty King Edward. H. R. H. Prince Arthur of Connaught welcomed him on behalf of the King.

China and the Powers.

Viceroy Yuan-shih-kai, Liu-kun-yi, and Chang-chi-tung, in interviews with the American tariff commissioner, united in declaring that China must make a supreme effort to promote commerce and friendly intercourse with Europe and America. China would, they said, make an unprecedented exhibit at the St. Louis Exhibition.

Cholera Rampant in Philippines.

MANILA, August 14th.
The cholera situation here is becoming daily more critical. More than 100 new cases have been reported to-day, exceeding by 25 per cent. the number of any previous day since epidemic was declared. Official attempts to check the disease have resulted in almost absolute failure. After an expenditure of more than \$300,000 gold for the suppression of the disease, the Health authorities have laid off the quarantine guard, which had checked promiscuous entry into the city, and now practically nothing stands in the way of wholesale immigration from the provinces. According to one of the health experts, native disregard of sanitary regulations and restrictions, coupled with the shortage of funds for a fight against the disease, have been discouraging factors throughout. He says that it would be useless to fight ignorance and prejudice, even were abundant money forthcoming for that purpose and that now it is quite impossible to enforce health regulations. This depressing view seems to be shared also by the Health Department, although formal confession to that effect will of course not be made. Everyone regards the situation as grave, and the entire non-native population is alarmed as to what the near future may yield. Medical men say that the rainy season, now fairly set in, furnishes the main hope for the check of the disease. This prospect has become the reliance of those who know how vital is its suppression to every material interest in the Philippines.

France and Siam.

LONDON, August 12th.
The Parisian papers, while discussing Franco-Siamese questions, admit that relations between the two countries are strained. The Siamese Minister, Klobukowski, has arrived to negotiate for some friendly understanding.

The Marcus Island Affair.

The Marcus Island affair is still discussed in the United States papers. The State Department's opinion is said to be that Captain Roosevelt's claim is invalidated by his neglect to perfect his title. It is further stated by the Press that the United States Government has ordered men-of-war to visit Wake Island and Midway Island, where the Japanese are reported to have settled. There are reports that the United States Government claims Marcus Island, but has no objection to Japanese settlers there provided that Japanese sovereignty is not asserted.

Hon. John Barrett at Nanking.

NANKING, August 12th.
Yesterday afternoon Viceroy Liu Kun-yi received Commissioner-General Barrett. The interview was long and interesting, and the Viceroy manifested great interest in the object of Mr. Barrett's visit, and showed him the special honour of a long and interesting interview. Mr. Barrett was accompanied by Consul Martin and Secretary Hardee. The Viceroy promised hearty co-operation in the St. Louis World's Exposition.

At Wuchang.

HANKOW, August 15th.
Yesterday Commissioner-General Barrett had an extended interview with the Viceroy Chang Chih-tung at Wuchang, during which the object of the St. Louis World's Exposition was fully explained to the Viceroy, who expressed his hearty approval and promised that he would exert his best influence to have China represented.

Cholera in Manchuria.

LONDON, August 15th.
An Odessa correspondent telegraphs reporting widespread and virulent cholera in Manchuria, and says that a considerable section of the Siberian Railway men are deserting their posts, and that the Chinese are dying like flies. In the neighbourhood of Harbin whole villages are desolated.

KWANG-SI REBELLION.

CHINESE TROOPS PASS THROUGH HONGKONG FOR CANTON.

The Kwang-si rebellion is evidently still causing considerable anxiety as the Imperial Government has again found it necessary to send large reinforcements from the North in addition to those from local provinces. It will be remembered that 3,000 men sailed last month from Anhui for Canton, and now it has been found necessary to despatch a number of troops in the Chinese cruisers *Nan-sheng* and *Nan-shui*, which are sister ships, and which left Shanghai a few days ago. H.E. Wang Chih-ch'un, the new Governor of Kwang-si, who has recently been employed procuring arms and seeing to the manufacture of uniforms for the newly raised brigade is also proceeding in the *Nan-sheng*. She is a fine cruiser and arrived in Hongkong between eight and seven o'clock last evening. At daylight she proceeded to Canton in command of Commodore Chew. The *Nan-shui*, Captain Wuh, also passed through the harbour between eight and nine o'clock this morning. News from the North states that the combined forces on board these two cruisers, number over 2,000 men, but local inquiries elicited the information that each ship had only 400 aboard. The new Governor will soon have a good opportunity of proving his abilities. The following concerning him is a clipping from the *N. C. D. News*—

It is stated in local mandarin circles that while in Peking lately, H. E. Wang Chih-ch'un became quite friendly with the French in the capital. H.E.'s well-known friendliness towards the Russians made it an easy matter for him to fall in line with his Gallic friends, who are to be his neighbours in the south for some time to come, and it might have been due to policy to conciliate, if he could, his powerful neighbours on the south-eastern boundaries of Kwang-si. Hence there cannot be much in the rumour which H.E.'s enemies seem to wish to put upon the circumstance.

Regarding the rebellion a recent report was to the effect that the movement in Kwang-si province is spreading. Hsiung, a place near the border of Kueichow province, is one rebel headquarters, and Hsiung, not far from the border of Yunnan, is another. The rebels bide their time, and descend upon and menace several public offices. It has been clearly shown that it is not advisable to employ the Kwang-si troops alone in the work of pacification, because these troops could easily be bought over to the rebel ranks.

GUILTY SOLDIERY TO BE PUNISHED.
An Imperial decree dated 10th August states—

We have received a memorial from Ting Chen-to, Governor of Kwang-si, denouncing Wu Tien-hsiu, Lieutenant-Colonel, commanding the Right Battalion of the Yi Corps of Kwang-si, for maintaining loose discipline in his regiment and encouraging his men to ruthless pillage and wantonly massacring innocent villagers, and requesting that the accused be cashiered and dismissed, the service for same. It appeared that the said Wu Tien-hsiu, while co-operating in conjunction with other troops against certain desperadoes in Lungansien, Kwang-si, ruthlessly and without cause shot down six volunteers of a village trained band, and then allowed his men to massacre a number of innocent villagers and pillage their houses. This is a most heinous crime and the sentence recommended to cashier and dismiss such a culprit is inadequate. We hereby command that the said Lieutenant-Colonel be summarily executed, and that the guilty soldiery concerned be also sought for and heavily punished.

THE PASSING OF THE T. P. G.

(From Our Own Correspondent.)

TIENTSIN, August 14th.
There is always a certain amount of pathos connected with the last days of any public institution, and the Tientsin Provisional Government is no exception to the rule. To those who have watched its gradual development from a complicated mass of conflicting interests into a harmonious and thoroughly well-organized administrative body, the closure upon it by diplomacy, and a hotch-potch Protocol, is fraught with peculiar reasons for regret. I visited the city yesterday for the last time as it will be known to foreigners for many years, perhaps ever. When next the Chinese place themselves by some rash action in our power, it is more than probable some paramount interest will wedge itself by a cunning previousness between "the Powers" and the Chinese, but not necessarily for the benefit of the latter. The T.P.G. has been an institution unique in the history of China, if not of the world. It has necessarily not been without its failures and mistakes; some of them no doubt of a grave nature. But the main direction of its influence has been munificent, and in passing through the city yesterday I was much struck with the marked change in the people. Two years ago when passing through in a similar way one was met by half-fearful, half-defiant scowls on all sides, the furtive side-glances of the milder tempered men all bespeaking a deep-seated hatred and distrust. Yesterday it was all changed. There was as much difference in the aspect of the people as there is in a landscape seen on cloudy and sunny days. Clean, prosperous shops lined the levelled, wide streets reminding one for the first time of Japanese city thoroughfares. The people around their doorways looked at us with a kindly cheerful interest suggestive of a smile. There was no shrinking, no spitting of abhorrence or contempt, no lowering of the smartly-dressed, stalwart and athletic police who in voluntary service of one of the Judges ran beside our

vehicles to clear the road of country yokels, or over-laden mules. We saw magnificent macadamised roads being made; a handsome and spacious Treasury being built; a steam roller at work on the road round the city on the site of the wall, and various other public works in process. Wherever we turned the eye met "keep to the left" on great boards in English, German, French and Chinese, to preserve some order in the medley traffic, while carts with "T.P.G. Pure Water" passed hither and thither and waving flags denoted this or that hospital or school.

Our objective was more especially the Temporary Palace which was erected before the coup d'etat of 1898 when it was hoped and expected that the Emperor would visit Tientsin, and which is now to be Yuan Shi Kai's private and official residence. The Imperial guest house is a fair sized residence built by an English architect and engineer, our Municipal Council Secretary, Mr. Bellingham, in somewhat Moorish style, but coolly luxurious to the hot weather visitor. From the spacious verandah surrounding the upper story on all sides, I noted an excellent view was obtainable of the foreign settlements and all our most prominent buildings, the flagstaffs on the towers of the Gordon Hall and Astor House Hotel being distinctly visible even to the naked eye. It must have been partly from that very verandah that the excellent range of some of their largest guns was obtained by the Chinese in 1900; for immediately to the rear of the palace a mud fort existed at that time in which several "long toms" were located. This was the fort that puzzled our gunners, as the Chinese used smokeless powder and it was impossible to locate the spot. That we did not locate it even approximately is proven by the undamaged condition of the Palace so close at hand, the place having escaped both shell and fire apparently. It is now in the workmen's hands and being altered to suit Yuan's requirements, and the signs of foreign wear and tear removed for the Yamen and Palace were occupied, be it remembered, by the Russians when the city was first taken, and considering the fate which usually attends a building after Russian occupation, the place may be considered in very creditable condition. Native artists yesterday were busy reproducing the huge inhuman figures in every gaudy hue which always adorn official doors; replacing windows, renewing partitions, and daubing the nauseous red-brown Ningpo varnish over the dingy work-work, and it appeared exceedingly doubtful if everything would be finished in time, seeing that Yuan is due here in a week's time. He cannot complain of his quarters certainly, and few foreigners of high station would despise the endless series of more or less ornate chambers and courtyards which comprise his yamen and will presently be filled with a noisy, wrangling, queering crowd of petty officials and yamen runners.

After leaving the Palace we retraced our steps to the Ta Tung Yamen of the T. P. G., and passed for the last time through the neat, mat-covered sections. Here, a shady courtyard marked out for lawn tennis was surrounded on three sides by the quarters of the police and sanitary officials required by the Governors to reside in the city, and one caught a glimpse through the curtained doorways of cushioned sofas, and nick nacked corners where young batchelorhood had made a bid for cosiness. There we passed on to another courtyard where the yellow bands on the police uniform denoted the sanitary departments sway, even if the imposing police, and a "Hospital" signboards had not denoted the fact. A third section brought us into the judicial section where bold notices of "Ariminal Court," "Chief Judge," "Civil Court," "House of Detention," "Judicial Court," etc. immediately caught the eye. The three Court rooms were plain and rather small apartments, but an enormous amount of good honest work has been done there, and a phenomenon opened out to Chinese eyes in the form of an unbrilliant bench, with no yamen runners. At the gate outside a petition box has throughout the T. P. G. received the petitions of civil claimants, and these statements of their wrongs have gone straight into the Court for translation and adjustment, a nominal fee for the hearing being charged and no extras. This system has deeply impressed the Chinese gentry and small petitioners, who under the Chinese have to give their grievances the go-by or face the loss of 50% of their claim in yamen squeezes!

Leaving the yamen we turned for a moment into the Free Library made by the T.P.G. arranged precisely on the lines of country reading rooms, neat, clean and well stocked with useful books. It is an institution which should be preserved and encouraged by the returning government, but it is generally believed it will be done away with in Company with all the other foreign institutions.

The more advanced Chinese while they naturally wish the reins held by a Chinese hand, shake their heads dubiously and regretfully over the retrogressive changes they instinctively foretell. They apprehend with some anxiety at least a brief reign of anarchy immediately after the transfer, as the 15th inst. will see, for instance, 2,000 men cast adrift without employment, and they argue with reason that Yuen would have been well advised to take over the T. P. G. native police as a going concern and weed out undesirable units as time went on. Instead he is bringing in about 1,000 new men, strangers to Tientsin and its citizens, which is an unpardonable crime in local eyes and setting 2,000 men loose who may find it difficult and certainly humiliating to take up promiscuous employment after the positions they have held. However, it is too early to pass judgment on the new regime, though one feels prompted to believe the Chinese are right who prophesy the last state of the city will be worse than the first.

THE FLOODS IN WEST RIVER VALLEY.

Dispatches from Liuchow and Wuchou prefectures, Kuangsi province, report that the whole region in their vicinity is now badly flooded and that a number of lives have been lost in the inundation. On the 22nd and 23rd of July last the West River suddenly rose to an abnormal height in Liuchow prefecture, burying from sight over thirty villages outside the prefectural city. Bodies of drowned human beings and cattle carried down stream are seen daily, and as an instance of the suddenness of the calamity a number of corpses floating on the river were clothed in the garb of the orthodox Chinese costumes of the previous Ming dynasty, showing that while theatricals, in honour of some god, were proceeding in one of the villages on the banks of the West River, the flood rose so suddenly and so rapidly that the actors had no time to change into their usual every-day Manchu costumes of the present period, and were accordingly involved in the GENERAL CATASTROPHE.

In Yunghsien also, the water is up to the eaves of the houses and the whole region is one great expanse of water. Outside Wuchou city, the high roads are covered to the height of several feet, blocking communication by land with interior towns. The flood, which had also inundated the rural parts of the districts of Sanshui (Coll.—Sambui), Nanhai (Coll.—Nanhai), Shuntai (Coll.—Shuntuk), and Hsienhui (Coll.—Suanwei), and Chaoching (Coll.—Siu-hoi) prefecture, all in Kuangung province, subsided on the 23rd about a couple of feet, much to the joy of the inhabitants, who thought they were soon to see dry land again; but to their sorrow and grief the river began to rapidly rise again on the 28th and 29th ultimo, till the whole region round about was but an expanse of water. Even in some parts of the city of Canton the water has remained for many days past up to the lintels of dwelling-houses situated on higher grounds.—N. C. D. News.

THE "ARETHUSA" CHALLENGE CUP.

FIRST HONOURS.

The shoot for the Challenge Cup which was presented by Captain Sturtin of H.M.S. *Arethusa* took place at Shanghai on the 14th inst, says an exchange. The distances were 200, 500 and 600 yards. In all about sixty competitors put in an appearance and the contest was keen for all were anxious for the honour to be the first to have their names inscribed on it. Class Petty Officer A. E. Cooper of H.M.S. *Arethusa*, after some good shooting, in which he made 30, 33, and 29, total 92, out of a possible 105, gained the coveted honour of being the first. Lieutenant Reids, of the *Arethusa*, warmly complimented him on his success. The Cup is to be shot for annually and is open to any one desirous of competing for it.

WAR PREDICTED.

BRITISH GENERAL'S VIEWS.

VICTORIA, B.C., July 15th.

In an interview given here to-day on his arrival from Shanghai, Major-General Sir A. F. R. Dorward, K.C.B., D.S.O., the latter distinction won when he was in charge of the allied forces at the capture of Tientsin, stated that there will undoubtedly be war between Japan and Russia before long, if the latter power does not evacuate Manchuria.

The Anglo-Japanese alliance forced Russia into the agreement with China, to retire from Manchuria within six months of April 8, when M. Lear and Princes Ching and Wang, signed the agreement, and Japan will see that she goes, too. Russia has now 83,000 men in the garrisons of Manchuria, and they will remain as long as permitted.

RUSSIA IS STUBBORN.

"The policy of Russia," said Major-General Dorward, "while it may not be admirable from the point of view of the fair-minded, certainly has its advantages. Russia always remains in control of any disputed territory, until, by show of arms, she is obliged to recede, and then the back-down is graceful and polite, but goes no further than necessary. The Czar's troops are ever ready to steel back again. They will no doubt recede from Manchuria when the time comes. At any rate they will be obliged to, for, as stated, Japan will declare war if they do not."

"If Manchuria is not evacuated, however," said the British General, "and Japanese correspondents at Peking say there are no signs of withdrawal although the time for retirement is approaching, it means war. Japan will fight. There is no doubt of that if Russia does not go. Both nations are well aware of this, and Russia is rapidly strengthening her garrisons and points of vantage, while Japan is quietly preparing to strike a blow if necessary."

SIGNAL IS AWAITED.

"If Russia does not go from Manchuria, and war occurs, the first thing this continent would hear of would be the blowing up and destruction of the big Russian railroad, for even now there are at points of vantage Japanese engineers who are versed in explosives and ever ready for the signal that war has been declared."

Speaking of the heavy loss of the Ninth United States Infantry at Tientsin Major-General Dorward said:

"Colonel Liscum evidently lost his way. He was the only American officer present at the council of war the night before the battle and he had it seems, not notified his officers of the plans. The Ninth Infantry were caught on the side of a swamp and in endeavoring to edge around were misled and lost heavily. Major Waller's troops and the Welch Fusiliers managed to get across the swamp without much loss."—S. F. Call.

CORONATION DAY AT SEA.

BETWEEN HONGKONG AND SINGAPORE.

Coronation Day on board the Hamburg American liner *Kiautschou* was celebrated whilst en-route from Hongkong to Singapore in a most festive manner, which helped to compensate those travelling by her for not being able to join in the celebrations on shore. Captain Luneschloss, the genial and popular commander, had the saloon tastefully decorated with bunting, which was very effective, and presented a gay appearance. A special dinner had also been prepared which was set out on extremely pretty "Coronation Menus" which were given to each passenger and will be kept by them as souvenirs of the great and happy occasion, to ensure the success of which no trouble had been spared by the Captain and Officers. The music had also received the same amount of attention, being specially selected for the occasion.

Champagne having been quaffed, the Captain in a most befitting speech, the sentiments of which were appreciated to the full by the British passengers on board, called upon all present to drink long life and prosperity to His Majesty King Edward VII and his noble Queen, which toast was drunk with much enthusiasm, the band playing "God Save the King."

One of the passengers, on behalf of the Britons, thanked the Captain for his great courtesy and kindness, both in what he had said and all he had done; and also the other passengers for the way in which they had honoured the toast, remarking that all would remember this occasion with the happiest recollections and asked all present to drink the health of Capt. Luneschloss and his Officers, and wish the N. D. L. Company every prosperity. This toast was given in grand style to the tune of "He's a Jolly Good Fellow" and the toast of the German Emperor was also honoured with much enthusiasm, the band playing "Deutschland für Ever."

A dance afterwards took place on the upper deck which had previously been decorated and otherwise prepared for this purpose and everybody enjoyed the evening thoroughly. So ended a day which will live long in the memories of all who participated in its festivities.

DRESSMAKING DEPARTMENT.

This section of our business is a new venture and has met with extraordinary success during the past 10 months.

All work cut and supervised by our dressmaker who, having had High Class Colonial and Home experience has attained the knowledge required to connect Style and Fashion with comfort in creating suitable toilets for Eastern wear.

We intend making this department a specialty and ladies will do well to give us a trial.

Our London and Parisienne buyers have Instructions to keep us up to date and supplied with all the latest and most Fashionable Goods so that our patrons may be assured of procuring everything of the newest and best.

Ball Dresses, Bridal Gowns, Afternoon Costumes. Mourning orders executed at shortest possible Notice.

Space will not allow us to quote the thousands of articles stocked in this establishment, but two words will convey all that is necessary, viz., GENERAL STORE. Do not fail to enquire for ANYTHING you may want.

July 16th.

R. G. HECKFORD,
MANAGER.
